Announcing The Eighth International Post Keynesian Workshop

June 19-29, 2004

*The Journal of Post Keynesian Economics*, the University of Missouri, Kansas City and the Center for Full Employment and Price Stability are pleased to host the Eighth International Post Keynesian Workshop in 2004.

The workshop will consist of the Post Keynesian Summer School from June 19-24, 2004 and the Post Keynesian Conference from June 26-29, 2004. The two events are linked in time but participants may want to go to either one or both.

The organizing theme for the workshop is “Policy for the Real World”. Summer school and conference programs will be organized by Paul Davidson, Jan A. Kregel, L. Randall Wray and Mathew Forstater. The Workshop will provide a rigorous discussion of both the theoretical and applied aspects of Post Keynesian economics, with an examination of meaningful prescriptive policies relevant to real world phenomena. The summer school will be of particular interest to graduate students and recent graduates. Well-known Post Keynesian economists from around the world will be the teaching staff at the school.

Apply soon, as we expect more than 150 participants! For more information about this exciting workshop, please visit [www.cfeps.org/events/pk2004/](http://www.cfeps.org/events/pk2004/).
